

# Errata *Introduction to Fluid Dynamics in Physics and Astrophysics*

Hendrik van Eerten

January 21, 2024

This is a list of typos found in the book after publication. If you are confident you have spotted another typo, you can let me know at [hjve20bath.ac.uk](mailto:hjve20bath.ac.uk) and I will gratefully include it in this list.

- p. 151 Equation 8.31 should have  $\gamma^2$ , not  $\gamma$  in the top right entries for  $[T^{\alpha\beta}]$  on the RHS (the tensor is symmetric, and top right should match bottom left).
